

PRODUCT INFORMATION

FELGENSTAR „S“

Professional wheel and rim -cleaner

No. 707

CHARACTERISTICS:

FELGENSTAR „S“ is a powerful wheel cleaner, easy to handle, biodegradable and it can be diluted with water.

FELGENSTAR „S“ removes tough dirt, brake-residues and more from aluminium-rims and steel-rims, as well as from plastic-wheel covers.

APPLICATION:

FELGENSTAR „S“ is especially suitable for the easy cleaning of aluminum rims, painted or powder-coated rims, plastic wheel covers, steel rims, etc. A must-have in all car parks, car dealerships, tire services and tire dealers as well as public users.

DOSAGE:

FELGENSTAR „S“ can be used “as it is” on very dirty rims and wheels. It can be diluted with water (1:5) depending on dirtiness of the wheels.

Not suitable for high-gloss polished rims or chrome-plated rims. Do not spray onto heated surfaces.

We recommend our COVIL CAR for the exterior cleaning of the vehicle.
